## Your Care at Midway Surgery

We offer a variety of services and our receptionists are trained to help you find the right service so will ask you some questions. We are all committed to keeping your personal details confidential so whatever you share will remain private.

- ☞ **Telephone Consultations:** the Doctor can help with many medical problems via the telephone and, if necessary, prescribe or book to see you in person.
- ☞ **Minor Illness Clinic with our Nurse Prescribers/Practitioners:** for coughs, colds, infections, rashes, aches and pains that won't go away or are getting worse (and rest at home and pharmacy medication is not working), then an appointment with a Prescribing Nurse is appropriate.
- ☞ **Pre-bookable appointments with Doctors are available up to 2 weeks in advance. Appointments with Nurses are available up to 2 months in advance.**
- ☞ **Same-day appointments with a Doctor:** When services above are not appropriate and you cannot medically wait until the next available appointment, there are a number of same-day appointments that become available early in the day. Telephone us as early as possible from 8.30am in order to book on the day. Once these appointments have been taken, you will need to contact us the following day.
- ☞ **Home visits:** are only made to housebound patients. Contact us as early as possible before 11.00am.

**PRESCRIPTION REQUESTS: Please allow at least FIVE WORKING DAYS for your prescription to be prepared.** Requests can be made:

- ☞ Online via the NHS App
- ☞ In writing or with your repeat prescription list—drop into surgery or post through our letter box
- ☞ Via your local pharmacy

Please state where you would like to collect your prescription/medication from—see below on the new EPS system to simply collect medication from your local Pharmacy.

### **Electronic Prescribing Service (EPS):**

The new EPS service enables us to send your prescription electronically to the pharmacy of your choice—no need to collect from the Surgery. With your consent, a pharmacy can set up a 'nomination' for the link. Once you have selected a pharmacy, your prescription will continue to be sent to them until you tell us otherwise.
